Application / Installation

Typically used as a patch and repair product or can be installed as part of a partition system, wall lining and ceiling system with Knauf fixings, jointing, taping and finishing products.

Use Knauf plasterboard screws at a distance of 300mm apart on horizontal joints and 10mm from bound edge and 13 mm from unbound edges in from the edge of the board.

Tape and Joint using Knauf's system tapes and jointing compounds.

Boards can be taped and jointed using Knauf Jointing Products, we recommend the use of a wallboard primer when finishing the board directly with paint.

The type and number of layers of board used will influence the structural, fire, acoustic and thermal performance of the system.

All products must be installed in accordance with Knauf's recommendations and the current recommendations of BS 8000-8 2023.
